Condition: New. Publisher/Verlag: transcript | A Reading of the Works of Ludwig Hilberseimer | In a positive departure from modernism, the work of the art critic and urbanist Ludwig Hilberseimer offers schemata towards the design for the city itself: its mereological composition. The resonance of parts unfolds to an alternative of a purely contrasting equation of form and content. It reminds us, that when the ground (gr.: logos) of the city is defined by its parts (gr.: meros), its architecture, the city in turn always also is part of the architecture as its desire. "The Mereological City" introduces a mereological methodology and contributes to an ongoing discussion about an ecological form of urban design. | Format: Paperback | Language/Sprache: english | 516 gr | 227x150x17 mm | 258 pp.
