The past lives just a heartbeat away from the present, a shadow cast forward. One way or another, it tends to stick around; in fading photos, lingering songs, or yellowing papers and notebooks shoved in drawers or boxed up in closets. Here, all dusted off and assembled in one place, are the tales I wrote while involved with the gaming company Game Systems, Inc. Each appearing originally in the journal Whisper of the Wood from the later 1980 s through the earlier 1990 s. Tales of breathless adventure, epic fantasies both light and dark, and grim, uncompromising war stories of near-future conflicts. Newly revised and expanded for this collection, with fresh introductions and commentary. Sixteen excursions through the Wood - come along; the past seeks only to be remembered.
