Layne Patent Screen and Patent Enclosed Line Shaft Centrifugal Pump. With the twenty-three hundred successful working plants using our system of irrigation, which inoculates and energizes the dormant forces, there is now being produced in previously non-productive districts throughout the United States and in portions of Europe and Asia over eleven million dollars worth of food products annually. That our system is not an experiment is forcibly demonstrated by the fact that much of this production is from localities which were arid and barren previous to the introduction of our system.
