On Demand Publishing, LLC-Create Space, 2017. Paperback. Condition: New. Anniversary. Language: English . Brand New Book ***** Print on Demand *****.Special Note to the 2018 Library Release of this 1992 Classic: According to a late 2017 study, the nation is closer than ever to a possible Second Constitutional Convention (CON2), which would be the most dangerous event in our history, given what talk show host Ron Reagan (son of the late President Ronald Reagan) has called our national tragedy. He means the rise of Donald Trump amid the cynical, Machiavellian conniving of Mitch McConnell, and the dirty operations of the corporate oligarchs. The rigged election of 2016 was a coup in itself, seizing all branches of government in an ongoing global-corporate takeover of the USA. Read Explanation Nation, nonfiction by John T. Cullen for the first really coherent explanation of the November 2016 coup by corporate powers. CON2 seems today more prescient than ever, and worth a read. (CTB, Dec.2017). The following text seems eerily prescient today: Two young U.S. Army officers, serving in differing intelligence units in Washington, D.C. as the convention begins, join forces in a puzzling murder investigation. Captain David Gordon and Lieutenant Victoria (Tory) Breen are on the trail of a missing Coast Guard computer genius. The trail takes them to a virtual world of digital commerce (presciently envisioned years ago, and still vibrantly original). The hidden worlds of the CloudMaster network take them to a conspiracy involving the vice president (murdered by domestic terrorists a year ago) and from there to a cabal of generals, admirals, and others who are determined to save us from ourselves, scrap all that evil liberal and godless nonsense in the Constitution, and provide us with a robust scriptural tyranny that would make Oliver Cromwell, Savanarola, or Cotton Mather envious....
