Summary Annual Report of Program Activities, Clinical Center: October 1, 1978 Through September 30, 1979 (Classic Reprint) (Paperback)

By National Institutes of Health

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Summary Annual Report of Program Activities, Clinical Center: October 1, 1978 Through September 30, 1979 The Clinical Center has continued to evolve both professionally and physically Renovations have begun to integrate the Clinical Center with the Ambulatory Care Research Facility and to modernize the hospital. Professional services provided by the Clinical Center have been increased despite unchanging personnel ceilings. Intensive mutual reviews of Institute clinical research programs and Clinical Center support efforts have facilitated planning. Clinical Center staff provided hospital services and, for the first time, direct physician care on a limited basis in its new medical intensive care unit. Department members conducted research in their own Specialties to develop and improve current technology to meet the needs of the clinical programs and collaborated with Institute scientists. Opportunities for advanced training were provided to young physicians, medical students, nursing students, and members of the paramedical professions. Mission Clinical Center To ensure the highest possible level of medical care to each patient To provide optimal resources and facilities for clinical research; To perform research on methods and systems involved in patient care...

Reviews

The ideal ebook i possibly study. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.
