PUZZLES IN LOGIC, LANGUAGES AND COMPUTATION

Condition: New. Publisher/Verlag: Springer, Berlin | The Red Book | This is the first volume of a unique collection that brings together the best English-language problems created for students competing in the Computational Linguistics Olympiad. These problems are representative of the diverse areas presented in the competition and designed with three principles in mind: To challenge the student analytically, without requiring any explicit knowledge or experience in linguistics or computer science; To expose the student to the different kinds of...
