

Toxic Substances: Status of EPA s Reviews of Chemicals Under the Chemical Testing Program: Rced-92-31fs

By -

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Pursuant to a congressional request, GAO provided detailed information on 16 of 22 chemicals tested by the Environmental Protection Agency (EPA) for health and environmental effects, focusing on: (1) testing and review time frames; (2) EPA test data reviews; and (3) EPA actions in response to its findings. GAO found that: (1) as of June 1991, EPA had completed its review of test results for 16 of 22 chemicals which met data submission requirements; (2) EPA plans no further action on 7 of the 16 chemicals with negative test results; (3) despite test results indicating potential adverse effects, EPA plans no further action on an eighth chemical because its exposure to people or the environment was low; (4) four of the eight remaining chemicals showed adverse effects and EPA referred those chemicals to other agencies and EPA offices for possible regulatory action; (5) EPA was planning additional testing for two other chemicals that did not indicate potential adverse effects, but were of sufficient concern to warrant testing; (6) EPA was waiting for the results of further ongoing testing...
