Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Lessons in English, Vol. 2 In a few particulars, usage has changed in recent years. Wherever this was the case, statements have been changed in the present book so as to accord with the best modern authority. In the treatment of composition, the series has been thoroughly revised and enlarged in accordance with the spirit and the method of a changed language curriculum. In grammar, the principal changes have been in the direction of simplification and abridgment. It is in the teaching of composition that the greatest advances in elementary English instruction have been made in recent years. Consequently, some portions of the earlier Reed and Kellogg have been eliminated, and a great deal of new material has been added. The increasing use of literature, both prose and poetry, not only as models but as a means of stirring the imagination and freeing tongue and pen, is reflected in this revision. The use of pictures, the relation of expression work to life, the harmonizing of the book problems with the child's world, are here emphasized. It has not been forgotten, however, that every good text in this field must be in large measure a drill book. Much talking and much writing on subjects which occupy the pupil's mind - to which he gives attention in his other studies or in which he can easily be led to take an interest - have been provided for.
