

## Lifespan: Time Does Not Exist (Paperback)

By Robert J Alderman

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Immortality has long been a dream of mankind. The successful religions have all had some belief or faith in some kind of life after death, heaven, paradise, etc. It has now become medically possible to successfully transfer cells from one human being to another. The only step missing is very close at hand. That is the transfer of the cells or group of cells that contain our memories. These memories when activated (awakened) may be the thing we refer to as a soul or simply consciousness. Cloning is now possible, this book explains one way to practically live forever. Time is also discussed as a paper within this book. Let us think about how the concept of Time could have started. Somewhere along the evolutionary trail early humans developed memory capability and also imagination. Memories created the notion of a Past and Imagination created the notion of a Future. You can remember a past or imagine a future. You may even dream of a past or a future. This paper attempts to prove that reality and consciousness only exist in the present....
