

OECD Trade Policy Studies Trade and Economic Effects of Responses to the Economic Crisis: OECD Trade Policy Studies (Paperback)

By -

Organization for Economic Co-operation and Development (OECD), France, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The dramatic collapse in world trade in 2009 is, this report shows, mainly due to: the drop in demand for highly traded products; the drying up of trade finance; and the vertically integrated nature of global supply chains. Contrary to expectations, protectionist measures were relatively muted and did not play a significant part. In fact, because of their sheer size, stimulus measures may have had more impact on trade than direct trade policy measures. Nevertheless, dollar for dollar, direct trade restricting measures have the most strongly negative impacts on growth and employment: a one dollar increase in tariff revenues results in a USD 2.16 drop in world exports and a USD 0.73 drop in world income. The analyses presented here suggest that exit strategies from measures to deal with the crisis will be most effective in boosting growth and jobs if they first roll back measures that discriminate between domestic and foreign firms and those that target specific sectors. General demand stimulus measures and active labour market policies are preferable under current conditions. Related reading: OECD Insights From Crisis...

Reviews

Very beneficial to all of class of people. I am quite late in start reading this one, but better then never. You may like just how the writer create this publication.

-- Audra Klocko PhD

Thorough information! Its this type of great go through. It is amongst the most incredible publication i actually have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.
