The Rejuvenating Trilogy was inspired with the aim of giving you empowering tools and information. These simple processes enable you to enjoy a vibrant life that is both fulfilling and peaceful. Real success unfolds from within. This is the third book of this Trilogy, in which we explore the development of unconditional love for self and others. As with the other books in this series, it includes the practical application of self-awareness in your everyday life, so you can access the peace that is already within you: a great foundation for any relationship you wish to deepen. With the understanding that you receive from others the same kind of love you have for yourself, we begin by exploring ways of connecting and falling in love with the most important person in your life: YOU! Once the Love Molecule is traveling around your whole being, it provides you with life enhancing energy and rejuvenative strength, your charisma increases and your life begins to change. Included in this manual are some simple rituals and easy practices that anyone can use, to integrate conscious sexuality which can be used both personally as well as shared in a partnership. There is no end to your well being and expansion!.
