Holt McDougal, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Amazing and intriguing questions and answers from the team behind the international phenomenon Why Don t Penguins Feet Freeze? The popular-science magazine behind the runaway international bestsellers Why Don t Penguins Feet Freeze? and Does Anything Eat Wasps? takes on another irresistible batch of the strange, silly, and mind-boggling questions that plague curious minds the world over: - Can pigeons sweat, can fish get thirsty, and can insects get fat?- Could a person commit the perfect murder by killing someone the day after receiving a full blood transfusion?- Is there a way to beat the odds of the lottery by using math?- How much mucus does a nose produce during the average cold?- If forced to eat parts of yourself to survive, which non-vital organs would be the most nutritious? Culled from New Scientist s popular The Last Word column and edited by Mick O Hare, the author of How to Fossilize Your Hamster, Do Polar Bears Get Lonely? is guaranteed to amuse and amaze as much as it informs. (And if a polar bear appears to be lonely, it probably means there wasn t enough walrus for dinner.).
