## DESIGNING OF SUBMERSIBLE ROBOT

Designing of Submersible Robot  
Basics, Concepts, Methods

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Basics, Concepts, Methods | Submersible robots are presently being employed for scientific research, sea exploration, military and commercial underwater applications. These robotics can be employed in lakes and ponds for weather research and also for monitoring water for agriculture purposes. This notion is apprehensive with the design and development of a submersible robot explicitly envisioned for development and progress in wet robotics especially in Pakistan. The notion entails of two phases; the first involves...
