Taunton Press, United States, 2012. General merchandise. Condition: New. Language: English . Brand New Book. The cabinet-on-stand form popularized by James Krenov uses familiar construction methods such as mortise-and-tenon joints, dowels, and bridle joints. What makes it special are all the lessons and details Jim Budlong adds, learned in years teaching side-by-side with the master. For example, he starts with the doors and then builds the case to fit them. The doors are joined with attractive, simple bridle joints, and divided glass panels help make them special. The carcass is joined with dowels, which makes it easy to dry-fit to ensure a perfect fit with the doors. The legs are shaped on the bandsaw and refined with hand tools.
