Mars Exploration Rovers
Entry, Descent, and Landing
Trajectory Analysis

NASA Technical Reports Server
(NTRS)

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 24 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. In this study we present a novel method of land surface classification using surface-reflected GPS signals in combination with digital imagery. Two GPS-derived classification features are merged with visible image data to create terrain-moisture (TM) classes, defined here as visibly identifiable terrain or landcover classes containing a surface soil moisture component. As compared to using surface imagery alone, classification accuracy is significantly...

Reviews

Totally one of the better pdf I have at any time read through. It really is simplified but shocks within the 50 % from the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Mariano Spinka**

Simply no words and phrases to spell out. It can be written in straightforward words and phrases rather than confusing. Your way of life period will likely be converted the instant you complete looking at this ebook.
