RICE: QUANTITATIVE GENETICS AND BREEDING

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | After cotton, rice is second export commodity of Pakistan. However, improvement in Basmati rice has been hampering due to its intrinsic genetic makeup. Here, we focused on quantitative genetics of some biometrical traits to understand the convolution of genetic control over 16 yield and yield components. Line \times tester analysis showed non-additive gene effects for all traits whereas triple test cross analysis explained non-additive gene effects in the form of j and...
