Gary Hartman, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Homebuilt Firearms is a great initiation for hobbyists who wish to try building a real gun from scratch, using only standard garage tools, NOT milling machines or lathes. Such a project is definitely a great learning and skill building experience for a person who enjoys gun sports and shooting-- and unusual, challenging projects. Starting with a used .22 barrel from a gun show, and adding some scrap Steel, a hobby builder can utilize his ingenuity and skills. using a drill press, grinders, wire welder, a hacksaw, files, etc. and can indeed build a firearm, first a repeater Single Action model, then a Double Action weapon. The rifle project described here is a functional ten shot .22 rifle. It offers a fun and rewarding building experience for any mechanically minded individual, an achievement to be enjoyed and used.
