SURFACE PROPERTIES OF SUPERACID CATALYSTS PREPARED FROM TIN OXIDE

Condition: New. Publisher/Verlag: Noor Publishing | Catalysts have been used commercially for more than a century, dating from the Deacon and contact processes, first used in the late of 19th century. Catalysis thus has a strong impact on the global economy and the economy of developing countries. Catalysis can be generally classified to two main categories; homogeneous and heterogeneous catalysis. Heterogeneous catalysis is largely an empirical science, more of an art than a science, and a large amount of knowledge...
