Excerpt from Cincinnati Medical Observer, 1856, Vol. 1 One ingredient, however, as it unquestionably has the lion s share in the composition, has probably, and taking all circum stances into consideration, the greatest in?uence in producing the effects Observed, namely, the solvent - the vehicle, pharmaco logically speaking - water. Entering in so large a proportion into the composition of the solids, as well as the ?uids of the human body, constituting seventy-five per cent. Of the weight Of muscle, upward Of eighty Of brain, and near eighty Of blood, large amounts are daily required, merely to supply the waste and keep the machinery in proper action. It is a very Old axiom, that bodies do not act upon each other (chemically) unless in a state of solution; and more than all things beside does water deserve the name Of the universal solvent. Neither animal nor plant can appropriate alimentary materials, unless they are in a state Of solution, or of very minute division suspended in ?uid. N O other ?uid can replace water in this, its great function Of liquefaction Of such...
