

Genetic and triploid breeding of Populus tomentosa cell

Filesize: 2.79 MB

Reviews

Great e book and helpful one. It really is written in straightforward terms and not hard to understand. You can expect to like how the blogger writes this book.
(Hudson Christiansen)

GENETIC AND TRIPLOID BREEDING OF POPULUS TOMENTOSA CELL

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 151 Publisher: China Environmental Science Press Pub. Date :2002-12-1. Book has six chapters. including an introduction. an overview of international research. basic research ideas. research materials and methods. results and discussion. conclusions . Contents: 1 Introduction 1.1 1.2 The meaning of water conservation forest trees. water measurement technology. theory and methods 2.1 2 water source protection planning area of ??natural forest conditions. overview of the theoretical basis of water 2.2 2.3 artificial tree seedlings under controlled conditions of a single water law 2.4 various species of wood-scale flow characteristics and water law 2.5 2.6 stand-scale study of water content and the relationship between the main study. Beijing. 3 basic pattern of water conservation forest and water resources 3.1 Beijing's strategic significance of water conservation forest 3.2 protection forest for water planning area analysis of distribution patterns of forest species 3.3 existing water source protection forest species composition and distribution patterns of water resource protection forest system 3.4 overall vision of 4 foliage scale: the 4.1 tree water physiology of different species of diurnal variation of transpiration index 4.2 Rapid weight per unit area under the law of comparative size of 4.3 transpiration transpiration and environmental factors indicators 4.4 Summary 5 individual tree scale: sap flow and its effect on the environment flow response time characteristics of different species 5.1 5.2 flow in each species sapwood area of ??the spatial distribution of 5.3 Xylem structure and water movement Biology 5.4 fluid circulation mechanism and the environment covariant 5.5 Summary 6 stand scale: micro-weather canopy evapotranspiration 6.1 features and components of energy balance dynamics of the 6.2 Solving the canopy resistance (rc) 6.3 6.4 Summary 7 stand transpiration of...
