Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Earthquakes and Volcanoes: Hot Springs Earthquakes and volcanoes are among the most frequent and terrible phenomena which affect the physical condition of our globe. Having seen so many and varied Opinions and theories concerning the cause, the impression came upon me, that surely, with all our boasted learning, and all our recent discoveries in physical, electrical, magnetical and astronomical science, a correct theory could be established beyond a reasonable doubt. I am now writing thoroughly imbued with that impression. I will say, however, that I do not intend to leave God out of the creation as most scientists do. It simply remains for us to discover the laws by which He created the heavens and the earth, and the power by which He controls them in the hollow of His hand.
