

Writing and Querying MapReduce Views in CouchDB: Tools for Data Analysts (Paperback)

By Bradley Holt

O Reilly Media, Inc, USA, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book. If you want to use CouchDB to support real-world applications, you'll need to create MapReduce views that let you query this document-oriented database for meaningful data. With this short and concise ebook, you'll learn how to create a variety of MapReduce views to help you query and aggregate data in CouchDB's large, distributed datasets. You'll get step-by-step instructions and lots of sample code to create and explore several MapReduce views through the course of the book, using an example database you construct. To work with these different views, you'll learn how to use the Futon web administration console and the cURL command line tool that come with CouchDB. * Learn how the Map and Reduce steps work independently and together to index your data * Use the example database to create several temporary views based on different criteria * Discover the uses of Map and Reduce JavaScript functions * Convert your temporary views to permanent views within a design document * Learn several options for querying the data within your views * Limit the number of results returned, skip...

Reviews

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).

-- Prof. Kirk Cruickshank DDS

This kind of book is every little thing and taught me to looking ahead of time and a lot more. I am quite late in start reading this one, but better than never. I found out this book from my dad and i encouraged this pdf to find out.
