Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Not Another Preachy Self-Help Book Your problem isn't your problem, it's you. You are a temple, and if you build your temple on shoddy, moldy beams it'll crack like a shack. The unnecessary pressures you put on yourself will eventually lead to bad, bad things. Demolition, implosion, spontaneous combustion to name a few. Every building in the world feels stress under its own weight, but while some fall apart, others just settle into their comfortable, stable, intended groove. Are you imploding? I mean even a little. Once a downward spiral gets momentum it's a tough ride to get off. The solution, however, is prevention. You deserve to be a happy house, with happy people, and happy beams. If your beams feel shaky, it's challenging to fill the house with happy people. What we're talking about here is a total remodel. Stripping out the old bones and replacing them with sturdy, mold-free planks of solid gold. Now that's a happy house. But we're going to have to start from the foundation. Tearing it down to its plot and building it up to a skyscraper visible from miles around. The Insecurity Sucker and Self Confidence Kickstarter: Break Down Walls and Build Your Unbreakable Foundation takes a pragmatic look at the perceived pressures we face as houses, and will demonstrate to you that non-insecurity has shortcuts, via its plethora of insight, exercises, and time-embattled confidence hacks. It's time to overcome insecurity, once and for all by stripping away your fundamental beliefs and replacing them with self-inspired strength. If any of the preceding struck a chord for you, consider how the following paradigm shifts would change your...
