AUTHORHOUSE, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.How did they do it? Who cares? Will it happen again? These are questions that put the following pages into perspective. As the reader, you become part of the story by what you add and how you finalize it with personal information at the end of the book. Living during the Great Depression, without the technology or medical resources we take for granted today, called for more than mere strength; it demanded faith and hope. This book chronicles ordinary people who dug deeply into their inner self to not just tolerate new and difficult experiences but to rise above them and use them as stepping stones to a new and better future. Imagine no electricity in many areas of our country, few automobiles and fewer roads, no kitchen appliances, no nylon, no hair dryers or boom boxes, no plastic, no ice cubes, no meaningful initials; TV, DVD, CD, MRI, GPS. Could we return to a life of such deprivation? Probably not but our world is being threatened with a new and unexpected depth of financial failure and what we learned from the past might give us insight into how we handle the future. What you document may influence people you love and people you do not even know.
