Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Taxation of Corporations in Illinois: Other Than Railroads, Since 1872, Price 55 Cents This is a study of the taxation of corporations in Illinois, other than railroads, since 1872. It considers chiefly those features of the state and local taxing methods that have been designed especially for taxing the intangible property of corporations. Detailed exposition of the taxing of corporations under the provisions of the general property tax, is not attempted; the general property tax is a large study in itself. The same policy has been followed in regard to special taxes on corporations. Railroad taxes are excluded also because they require a lengthy separate study; and any general statement in these pages, may or may not apply to railroad corporations. Eighteen hundred seventy-two is the date selected for the beginning of this study because under the new constitution adopted in 1870, the general assembly in that year enacted the general revenue law which in its main features has remained unchanged to the present. This study was made in 1909; but has been edited and revised to include changes in the revenue law and data since that time.
