

Urban Environmental Changes

By Arunprakash, Muthumanickam / Charulatha, G.

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Sustainable and Management Solution A case study from South Chennai, India | An understanding of modification of land use and land cover pattern in urban agglomeration which plays important role in environmental changes. This book motivates to study about urban environmental geochemistry. This author profoundly discussed about remote sensing and GIS study and significant relationships between the green-cover change and the environmental performance change of the study area. Also the study provides comprehensive research in integrating geomorphic and hydrogeochemical data from a range of spatial scales to better understand how the interactions of these factors affect groundwater systems and socio economic integrity of study area. This book gives clear picture about spatial distribution, quality and quantitative assessment of trace elements and major ions using various techniques like Wilcox diagram, Kelley s ratio, SAR and USSS diagram. The outcome of the research briefly talks about urban management plan for sustainable development and control pollution at the source. | Format: Paperback | Language/Sprache: english | 240 pp.
