GLASS FIBER REINFORCED POLYMER RETROFITTED HOLLOW COLUMNS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | The load deformation and internal strain responses | Rectangular hollow bridge piers are commonly used for flyover and bridge infrastructure construction in countries with active seismic activity such as Taiwan, Japan and China due to its higher ductility and low contribution of mass to seismic response. Due to increasing live load with time as traffic level increases, structural strengthening work of hollow bridge piers are necessary to extend service life of bridge...
