Brand New Book ***** Print on Demand *****.Excerpt from Industrial Education: A System of Training for Men Entering Upon Trade and Commerce This series of books owes its existence to the generosity of Messrs. Hart, Schaffner Marx of Chicago, who have shown a special interest in trying to draw the attention of American youth to the study of economic and commercial subjects, and to encourage the best thinking of the country to investigate the problems which vitally affect the business world of to-day. For this purpose they have delegated to the undersigned Committee the task of selecting topics, making all announcements and awarding prizes annually for those who wish to compete. In the year ending June 1, 1905, the following topics were assigned: 1. The cause and extent of the recent industrial progress of Germany. 2. To what is the recent growth of American competition in the markets of Europe to be attributed? 3. The influence of industrial combinations upon the condition of the American laborer.
