An excerpt from the INTRODUCTION: Manual treatment for disease has to a certain extent existed since the creation. Man had, by instinct, acquired the art of manipulation long before nature yielded her secrets in medicine. This is still the practice among many nations. In Sweden, even at the present time, certain manipulations are used among the peasants for cramps, swellings, etc. The Swedes seem never to have lost the art but recently revived in other countries. Amiot and Dally speak of a perfect system of gymnastics among the Chinese three thousand years before the Christian era. The priests of Egypt used some manipulation in the form of kneading and friction for rheumatic pains, neuralgias, and swellings. The Hindoos, also, had some knowledge of their therapeutic importance; but the masses were soon mystified by the priests, who by incantations and magical words, led them to believe they were invented by the gods. Even the Persians used a few movements for different affections. The Greeks were the first to recognize gymnastics as an institutional fact of much importance to the free states. Here they were auxiliary to the development of the people both socially and politically. The gymnasts were political, pedagogic, esthetic, and therapeutic. The philosophers and the...
