Tomato Grafting for Low-Resource Open-field
Production in Tanzania

LAP Lambert Academic Publishing Mrz 2015, 2015. Taschenbuch. Book Condition: Neu. 220x150x4 mm. This item is printed on demand - Print on Demand Neuware - Tomato is among the most important vegetables grown in Tanzania. However, production is challenged by abiotic and biotic factors. These problems are exacerbated for small-scale farmers because many of them have limited capital to invest in agricultural inputs such as herbicides and pesticides. As a result, tomato yields tend to be lower in quantity and...
