Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Past and Present Life of the Globe: Being a Sketch in Outline of the World s Life-System The objects of the following Chapters is to present a sketch in outline of the World s Life-System - tracing from the earliest organisms in the stratified crust to the forms that now adorn and people its surface. The aim has been to link the remote to the recent - the living to the extinct - that the general reader may be enabled to form some intelligible conception of the whole as a great and continuously-evolving scheme of vegetable and animal existences. There is no attempt whatever to teach anatomical details or point out specific distinctions - the volume being intended not as a Handbook of Palaeontology, but simply as a readable sketch for the information of those who have neither the time nor the preliminary training to avail themselves of works of higher scientific pretensions. And yet the reader will find in these pages a reliable resume of the science, as founded on the most recent discoveries, and a treatment of...
