Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from The Chalif Text Book of Dancing, Vol. 2 The technical consideration of dancing falls naturally into two divisions - of the upper and lower halves of the body, with the waist the dividing line. The lower possesses two legs and feet, with joints of limited arc of movement; the upper includes the mobile arms, the hands, head and expressive face. Hence the activity of the lower half is more precise and technical - that of the upper, more plastic, imaginative and expressive; the lower is more difficult and clever - the higher, more lyric and enchant ing; the lower, being the stronger, supplies most of the movement and is the framework of the dance - the higher is the more graceful, and decorates the framework, making it a thing of beauty.
