Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Simplified Methods for Seismic Analysis and Design of Isolated and Damped Bridges in North America | "The research objectives presented in this study are relevant and of significant interest to both the academic and design communities. Some aspects of the research work that I consider to be original and particularly valuable include: - Review of existing CAN/CSA-S6-06, Canadian Highway Bridge Design Code, damping coefficients (B values) for isolated bridges and the proposal..."
