

## Machinery Training Tutorial (ordinary institutions of higher learning based experiment mechanical planning materials)

Filesize: 3.9 MB

### **Reviews**

*Complete guide! Its this kind of very good read through. This is certainly for all who statte there was not a worthy of looking at. I am just quickly will get a delight of looking at a composed publication.*

*(Kacie Carroll)*

## **MACHINERY TRAINING TUTORIAL (ORDINARY INSTITUTIONS OF HIGHER LEARNING BASED EXPERIMENT MECHANICAL PLANNING MATERIALS)**

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 203 Publisher: Southwest Jiaotong University Pub. Date :2010-08-01 version 1. This book is based on the Ministry of Education Curriculum Steering Committee. Machinery manufacturing practice teaching basic requirements and college engineering training center construction specifications and acceptance criteria content. combined with the college of engineering practice in recent years. the reform of teaching and practical experience. from the Southwest Petroleum University and Chinese University of the West engaged in machinery manufacturing engineering practice in teaching writing. Learn from this book are: A Brief History of the development of machinery. basic knowledge of engineering materials. casting. forging. welding. cutting the basic knowledge. turning. milling. planing machining. grinding. and assembly fitter. NC basic knowledge of machining. CNC turning. CNC milling. CNC machining centers and special processing. Book writing process. the focus on fun. practical. enlightening. scientific. advanced and systematic. so that the basic concept is clear. focused. concise. vivid. Book for colleges and universities in recent machine type. machine type and other related non-professional and professional Vocational and Technical College-related use. Also available to the engineering and technical officers. Contents: first the basics of machinery training Chapter 1 Introduction Section II A Brief History of Chinese machinery manufacturing machinery Brief History of Western countries. section III. Machinery Manufacturing Training course objectives and requirements of Section IV. Machinery Training course content Section V. Machinery Manufacturing Training course of performance appraisal Chapter basic knowledge of engineering materials and heat treatment outlined in Section II Section III of engineering materials commonly used heat treatment of steel solid second conventional machinery Chapter III Section Training sand casting foundry casting Chapter II Special Section Forging Forging Stamping Chapter II Section SMAW welding gas welding...
