*Comprehensive guide! Its this type of very good read through. It is actually writter in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

Freer describes whats in store for us as this dawning genetic enlightenment reveals the new human and the racial maturity of a new planetary civilization on the horizon. We all can contribute to our racial future as we evolve from a slave species to far beyond what we could previously even imagine. The godspell broken, we new humans will create our own realities and play our own god games. Once we understand our true genetic history we will eventually move beyond the gods, religion, linear consciousness and even death. The subtitle. What do you do forever, inspires us to contemplate how things like four-dimensional consciousness, the realization of a Law of Everything and the option of immortality will enable the new human to determine his own evolutionary path. It is quite possible that great thinkers in the future will look back on this book, in particular, as being the one which opened the door to our full evolutionary potential and a new paradigm....
