Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

Brand New Book ***** Print on Demand *****.Sarah is on a journey to discover the truth behind her brother s disappearance and her mother s absence. Once she had a family, as damaged as it was. Once she had a past and a future that was sad, but predictable, and easily understood. All that had changed, and instead of idly making coffee and reading through her collection of books, Sarah was facing the truth about the universe, and learning all of its secrets. It all began with the purchase of her cafe, Wonderland, but in truth it began long before. When as a little girl she would stare into her mother s empty eyes, and hope for a spark of recognition. In many ways she had never stopped hoping. As Sarah struggles to navigate the lies and deceptions of those she had thought were her friends, she faces the challenge of choosing what to believe. Reality becomes just a word to her as she discovers that there are other planes, not just Earth, and that on one of them her brother is imprisoned and likely being tortured. A revelation from the past heals Sarah in many ways, but also breaks her heart. She yearns only to have her brother back, and safe. With Harry s steady presence always kind if not a little secretive, and the mysterious Arys always showing up when she least expects it, Sarah is torn between who she can...
