ION IMPLANTATION IN MICROELECTRONICS

Book Condition: New. Publisher/Verlag: Springer, Berlin | A Comprehensive Bibliography | During the past ten years the use of ion implantation for doping semiconductors has become an active area of research and new device development. This doping technique has recently reached a level of maturity such that it is an integral step in the manufacturing of discrete semiconductor devices and integrated circuits. Ion implantation has significant advantages over diffusion such as: precision, purity, versatility, and automation; all of which...
