Reviews

The publication is easy in read through better to recognize. It usually will not cost too much. You wont feel monotony at whenever you want of the time (that's what catalogs are for concerning when you question me).
(Rebecca Bechtelar)

ESSAYS IN ELECTROMAGNETISM AND MATTER

[DOWNLOAD PDF](#)

LAP LAMBERT Academic Publishing. Paperback. Condition: New. 268 pages. Dimensions: 8.7in. x 5.9in. x 0.6in. The book is devoted to various problems arising in electromagnetic field interacting with matter. It belongs to what is usually called Electrodynamics of Continuous Media, or Classical Electromagnetism in Matter, or Optics and the Theory of Electrons. These subjects are usually left at a quasi-empirical or semi-phenomenological level. The present book introduces explicitly the degrees of motion of the electric polarization and magnetization of matter. This new approach renders Maxwell equations in matter a determined system of equations and allows specific solutions for a series of problems which might be of interest in today's nanoplasmics and nanophotonics. The book includes both a basic exposition of fundamental things in Electromagnetism and various particular problems, some of them collected from papers published in scientific journals. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
