Oxford University Press, United Kingdom, 2001. Paperback. Book Condition: New. Revised ed.. 213 x 137 mm. Language: English . Brand New Book. In his *Aesthetics* Hegel gives full expression to his seminal theory of art. He surveys the history of art from ancient India, Egypt, and Greece through to the Romantic movement of his own time, criticizes major works, and probes their meaning and significance; his rich array of examples gives broad scope for his judgement and makes vivid his exposition of his theory. The substantial Introduction is Hegel's best exposition of his general philosophy of art, and provides the ideal way into his *Aesthetics*. In Part I he considers the general nature of art: he distinguishes art, as a spiritual experience, from religion and philosophy; he discusses the beauty of art and differentiates it from the beauty of nature; and he examines artistic genius and originality. Part II provides a sort of history of art, divided into three periods called Symbolic (India, Persia, Egypt), Classical (Greece), and Romantic (medieval and post-medieval up to the end of the eighteenth century). Part III deals individually with architecture, sculpture, painting, music, and literature.
