Tor.com. Paperback. Condition: New. 176 pages. Professor Vellitt Boe teaches at the prestigious Ulthar Womens College. When one of her most gifted students elopes with a dreamer from the waking world, Vellitt must retrieve her. But the journey sends her on a quest across the Dreamlands and into her own mysterious past, where some secrets were never meant to surface. Kij Johnson has an unrivalled gift for making the unreal real and the real unreal. Vellitts quest to find a former student who may be the only person who can save her community takes her through a world governed by a seemingly arbitrary dream logic in which she occasionally glimpses an underlying but mysterious order, a world ruled by capricious gods and populated by the creatures of dreams and nightmares. Those familiar with Lovecrafts work will travel through a fantasy landscape infused with Lovecraftian images viewed from another perspective, but even readers unfamiliar with his work will be enthralled by Vellitts quest. A remarkable accomplishment that repays rereading. -- Pamela Sargent, winner of the Nebula Award This item ships from multiple locations. Your book may...
