THE FEASIBILITY OF DEVELOPING A NATIONAL PARCEL DATABASE: COUNTY DATA RECORDS PROJECT FINAL REPORT

DOWNLOAD

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 88 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. In 2010, the U. S. Department of Housing and Urban Development (HUD) charted new territory in an effort to develop a national database of standardized parcel-level (property) data collected directly from the most authoritative sources: local counties. HUD contracted with Abt Associates Inc. and their subcontractors, Fairview Industries and Smart Data Strategies, to embark on an exploratory project for assembling local assessor data, including key attributes such as property address, assessed value, land use, sales price, and sales history, for 127 targeted counties. The primary tasks of the project included identifying the appropriate data sources in each community, assembling the data and metadata, and standardizing the data in a common format to be accessible for HUD research efforts and for possibly aggregating data to higher levels of geography for public dissemination. This item ships from La Vergne, TN. Paperback.
