Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A System of Modern Geography, for Schools, Academies, and Families, Designed to Answer the Two-Fold Purpose of a Correct Guide to the Student, and of a Geographical Reading Book: Containing Preliminary Explanations and Exercises on the Map, and Comprising Above 150 Descriptive Pieces or Lessons, Succeeded by Appropriate Questions The science of Geography is one of increasing interest and importance. It is an essential branch of elementary education, and is calculated to awaken and cherish that spirit of curiosity and inquiry which is so natural to the juvenile mind, and which under due regulation, often leads to the noblest and happiest results. Nor is it an unworthy theme for mature and cultivated minds, nor beneath the attention of men of learning and taste, nor is it important merely as a source of mental diversion and entertainment; on the contrary it opens a wide field for improving and profitable contemplation, is in many respects connected with the general circle of the sciences, and contributes more than is commonly supposed, to the formation of the scholar, the man of business, the patriot, and the philanthropist. Geographical knowledge, more than any other branches, is in its nature progressive. The field it embraces is large, and has as yet been but superficially or partially surveyed. Of many parts of the world we are still extremely ignorant. They are yet to be explored. And as travellers and adventurers, from time to time, are becoming more numerous, intelligent, and faithful, new degrees of light are successively afforded, and fresh discoveries made and announced, so that a growing interest is felt on this subject. At no former period, perhaps,...
