S. Geological Survey and the French Rules on Reinforced Concrete The subject of concrete and reinforced concrete is one of the most important matters that is now before the American public. So important has it been considered by those connected with engineering, that the leading societies in this field have associated themselves in the creation of a Joint Committee on Concrete and Reinforced Concrete, the members of which Committee are representatives of the following societies: American Society of Civil Engineers; American Society for Testing Materials; American Railway Engineering Maintenance of Way Association, Association of American Portland Cement Manufacturers. In addition to this, the following organizations are lending their hearty co-operation in the work. National Board of Fire Underwriters; National Fire Protection Association; The Concrete Block Machine Manufacturers Association, and the National Association of Cement Users. The Work of the Committees This Committee on Concrete and Reinforced Concrete, as is well known, has been at work for nearly two years endeavoring to arrive at some definite conclusions on the important subjects entrusted to their care. It has been most fortunate in being able to secure, not only the co-operation of the leading colleges of the United States in its research investigations, but also the co-operation of the United States Advisory Board on Fuels and Structural Materials, which has a splendidly equipped laboratory at St. Louis. The importance of the work was recognized by the United States Government in a practical way by an appropriation of one hundred thousand dollars, for the purpose of...
