This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Pursuant to a congressional request, GAO reviewed Medicare payments for medical supplies, focusing on the: (1) circumstances surrounding payments for unusually high surgical dressing claims; and (2) adequacy of Medicare's internal controls to prevent paying such claims. GAO found that: (1) although the Health Care Financing Administration (HCFA) has eliminated medical suppliers' ability to select contractors with the highest payment rates, unwarranted expenditures still persist; (2) reasons for the unwarranted expenditures include inadequate systematic payment controls and noncompetitive payment rates for surgical dressings; (3) many Medicare contractors lack itemized bills, fail to automatically review high-dollar claims for newly covered surgical dressings, and lack a systematic method for detecting duplicate bills submitted to different types of Medicare carriers; (4) Medicare payment rates for new surgical dressings and other medical supplies are considerably higher than wholesale and retail prices; (5) HCFA could curtail these overpayments by establishing procedures to require itemized claims, preventing duplicate payments to Medicare suppliers, and identifying high-dollar, high-volume claims that should be reviewed before payment; (6) the initiative will provide comprehensive national payment data that will allow HCFA and its contractors to detect inappropriate billing and overutilization; and (7) HCFA needs legislative authority to set competitive payment rates that are favorable for high-volume purchasers. This item ships from La Vergne, TN. Paperback.
