

Correlate iron deficiency anemia with gallstones disease

By Kaushik, Nitin / Prasad, P. C.

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | To study serum iron levels in patients of gallbladder stone disease and to compare with healthy individuals | TO STUDY SERUM IRON LEVELS IN PATIENTS OF GALL BLADDER STONE DISEASE AND TO COMPARE WITH HEALTHY INDIVIDUALS ABSTRACT Background: The old axiom that a typical gall stone sufferer is a fat, fertile, female of fifty, is only partially true. The aetiology of cholelithiasis is still not well understood but various factors that have been held responsible are infection, metabolic changes and gall bladder stasis. Three conditions must be met to permit the formation of cholesterol gallstones:-
 1. Supersaturation of bile with cholesterol, 2. Kinetically favorable nucleation, 3. Cholesterol crystals must remain in gall bladder long enough to agglomerate into stones. Trace elements such as (Fe, Ca, Zn and Cu) have got a definitive role in the formation of gallstones. Trace elements and defective pH of bladder may be one of the underlying factors in pathogenesis of gallstones. Aims: To estimate the serum ferritin level as a diagnostic tool of iron deficiency anemia in patients with gallstone. conclusion: Serum ferritin cannot be taken as sole diagnostic tool in the diagnosis of iron deficiency anemia. | Format: Paperback |...

Reviews

A top quality publication along with the font used was intriguing to read. I really could comprehend everything using this written e book. Its been designed in a remarkably straightforward way and it is only after i finished reading through this publication by which basically altered me, modify the way i believe.

-- Cathrine Larkin Sr.

Very useful to all of group of people. I actually have read through and so i am certain that i will planning to study yet again once again down the road. I am just very easily can get a satisfaction of looking at a created book.

-- Mark Bernier
