Seminar paper from the year 2012 in the subject Nursing Science, grade: B, New York University, language: English, abstract: Heritage assessment tool in nursing is an essential component in the field of medicine and health. It is a tool used to assess, maintain and restore individuals culture and beliefs. Heritage assessment tools play a key role of helping health care and service providers assess and evaluate the cultural health methods (Viginia and Catana, 2010). All individuals living in a community have their heritage which is different from culture. These types of traditional health assessment majorly deal with peoples spiritual, mental and physical beliefs. Communities have varieties of beliefs on death, illness, health and diseases. In most of the societies, health is termed as a complete balance between an individuals mind, body, spirit and family in relation to other external forces of the world. All this beliefs play important roles in heritage assessment because they give a holistic approach for addressing this issue. It helps both the health provider and the patient to find an effective and efficient communication that will enhance health (Philos, 2010). The ultimate goal...
