Ingenious scholars, surveying life from afar, are apt to interpret historical events as the outcome of impersonal forces which shape the course of nations unknown to themselves. This is an impressive theory, but it will not bear close scrutiny. Human nature everywhere responds to the influence of personality. In Greece this response is more marked than anywhere else. No people in the world has been so completely dominated by personal figures and suffered so grievously from their feuds, ever since the day when strife first parted Atreides, king of men, and god-like Achilles. The outbreak of the European War found Greece under the sway of King Constantine and his Premier Eleutherios Venizelos; and her history during that troubled era inevitably centres round these two personalities. This item ships from La Vergne, TN. Paperback.
