Dr. James Rota is a pioneer in holistic dentistry. After 50 years in dentistry, he is sharing his uncommon story about biological dentistry, the dangers of mercury fillings, and what you can do to save yourself and to stop the madness of mercury in dentistry. Dr. Rota answers questions that the American Dental Association may not want you to ask: 1. Why don't dentists know or speak about mercury in the dental filling? 2. How are teeth connected to the rest of the body? 3. What is the scientific basis for the position of both the ADA and anti-mercury filling groups? 4. How are silver dental fillings related to chronic diseases? Mercury - a highly toxic element - has played a central theme in Dr. Rota's life, from his childhood and throughout his dental career. Silver fillings contain 50 percent mercury. It made him sick, causing Chronic Fatigue Syndrome, burnout, depression and Epstein-Barr Syndrome, among other diseases. As one of many people hoping to ban the use of mercury in dentistry, Dr. Rota stands by the importance of safe mercury removal protocols. Mirror of the Body chronicles his life, delving deep into the Amalgam Wars and scientific evidence, offering dentists, health professionals, and consumers an expert and revelatory view on the toxins in dentistry and their effect on the rest of the body.
