

Zero and One: The Relativity of Science and Poetry (Paperback)

Filesize: 4.48 MB

Reviews

Certainly, this is actually the very best job by any author. it was writtern very flawlessly and beneficial. I found out this publication from my dad and i recommended this ebook to discover.
(Magali Robel)

ZERO AND ONE: THE RELATIVITY OF SCIENCE AND POETRY (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. This new collection of poems, Zero and One, is at once an exploration of what it means to be corporeal and yet not, digital, and yet organic. Informed by the parallels in the evolution of both the human experience and the sciences, this collection, a marriage of opposites, is at its best when it confronts head-on the paradoxes of mathematics, existence, religion, and human understanding. Perhaps what is most striking about this collection is the powerful use of repeated themes and imagery. Each time we revisit a familiar theme or image, something new is added - sometimes a new perspective, at others a powerful line that makes us sit up and take notice in a way only great poetry can. Whether we are tracking the history of tectonic plates, the power of the feminine, or even of creation itself, Ahmed reminds us that all this is infinitely connected to itself and to our modern experience. And where this might be intimidating or lost in minutia had these poems been written by a lesser talent, Ahmed, easily returns us through, as he puts it, the closed but somehow open circle to the moments of joy that are creation, discovery, and the recognition of beauty-be it natural, digital, mathematically theoretical, or spiritual. The poems explore the relationship between the impossible ideals that are necessarily inside of beneath our corporeal bodies, the earth itself, and even how we encounter and discover knowledge, or science. As our awareness and experience of the world around us transcends the organic into the digital, old symbols, like one and zero, are imbued with new meaning. Fathima, the daughter of the Prophet Muhammad and the perfect ideal of the...
