Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Alec sees things he's obsessed with his telescope, he's not sleeping. His boss gives him much-needed time off work to recuperate but does he? No: Alec goes to an all-night party with his friends where he (unwittingly) takes L.S.D. The things he thinks he can already see become intensified whilst under the influence and then there is the police. Leaving the party early to return to his beloved telescope they question him. Aliens (to Alec's eyes) he reacts badly they react badly to his bad reaction he's arrested. One of the best conspiracy-theory novels ever written. From London to The U.S.A, New Zealand to Canada, the conspiracy deepens. Though apparently based on some dubious theories the full weight of Intelligence agencies kick into gear, besides, who knows how corrupt those charged with protecting us really are. Seriously, do you feel safe? Alec finds the answer it's not nice it's not fluffy the necessary never is.
